## Coordinator specialist - Health Finance Department

### Our client:

A global NGO based in Geneva

### Role & Responsibilities:

The Specialist plays a key role in strengthening the capacity of the Health Finance Department to provide comprehensive technical support to country teams to enhance domestic financing, strengthen sustainability, and protect gains made in the fight against diseases in the context of Covid-19.

- As one of the primary technical stakeholders within the Health Finance Department, provides technical support for Grant Management country teams in the context of new funding requests, approvals, and implementation.

- Leads the efforts of the Health Finance Department to effectively integrate Health Finance and domestic financing considerations into the grant-management and access to funding processes for new funding requests, reviews, approvals, and implementation.

- Serves as a Health Finance focal point for specific set of regional teams in order to provide surge capacity for new funding request reviews and approvals, as part of the technical support the Health Finance Department provides to grant management.

- Provides technical support for co-financing processes and technical support for the development of grant for specific countries.

- Contributes to and supports internal reviews of health financing / STC aspects of specific grants and country portfolios, including supporting TRP reviews, PPCs, pre-GACs, country audits, thematic audits, TERG reviews, etc.

- Completes data validation and oversight of Health Finance data for select countries of the NGO portfolio, with a particular focus on the new Funding Requests and approvals.

- Develops analysis and evidence generation on Health Finance, value for money and STC themes for country teams / regional teams for specific countries, leveraging Health Finance data and other information to support ongoing regional efforts and strategies.

- Leverages professional knowledge and experience to collaborate with Grant Management Division and key regional / country level partners to institutionalize effective and efficient mechanisms to support strengthened sustainability, domestic financing, and Value for Money at the country level.

### Profile:

- Advanced University Degree in economics, public health, management, development studies, or a relevant field

- Specialization in public health, health economics, economics, and / or other related field

- Strong experience in or related to health financing, expenditure tracking, public financing, sustainability and transition, development finance, health financing reforms, or related technical fields

- Demonstrated experience supporting implementation of development financing in the global health and/or the development fields

- Demonstrated experience providing high-quality technical support to stakeholders supporting the implementation of development or development finance initiatives, preferably within the Global Health space.

- Over 4 - 6 years of demonstrated experience in or related to health financing, expenditure tracking, public financing, development of health, sustainability and transition, health financing reforms or other related fields.

- An excellent knowledge of English and preferably a good working knowledge of either French, Spanish, or Russian.
