

# **PERFORMANCE CONSULTANT SA**

Conseil en ressources humaines

## **Data Consultant H/F**

### **Our client:**

an international NGO based in Geneva

### **Role & Responsibilities:**

The Data Consultant will lead work in this space to enhance data use in monitoring of investments and key decision making. The incumbent will also serve as the focal point for programmatic and financial data analysis and reporting. They will design data visualizations for a variety of internal and external audiences. To ground the change management and use of data, the Data Consultant will also build capacity and support teams within an assigned portfolio, translating lessons learned into key policy and guidance refinements for global implementation as corporate and country processes evolve. This includes an integrated performance management approach.

### **Profile:**

- University degree in business administration, communications, public health, international development or relevant field
- Experience with the collection, reporting and analysis of quantitative data (this includes data visualization).
- At least four years' experience in progressively more responsible positions for an international development or global health organization, government, or NGO
- Excellent written and verbal communication skills
- An excellent knowledge of English and preferably a good working knowledge of Spanish. Knowledge of other languages (e.g. French or Portuguese) would be an asset.

**Contract type: Temporary / 6 months**

**Rate of activity: 100%**

**Starting date: ASAP**

**We guarantee you to handle your application in total confidentiality**
